

FIRST® Robotics Competition

“The varsity sport for the mind,” FRC combines the excitement of sport with the rigors of science and technology. Under strict rules, limited resources, and time limits, teams of 25 students or more are challenged to raise funds, design a team “brand,” hone teamwork skills, and build and program robots to perform prescribed tasks against a field of competitors. It’s as close to “real-world engineering” as a student can get. Volunteer professional mentors lend their time and talents to guide each team.

East Kentwood High School Team #3875

We are a dynamic group of East Kentwood high school students working towards a common goal to build a robot. As we work together to complete our goal, we test our knowledge, skills, and abilities. Our experience will enable us to become successful leaders of the future and open doors to new learning possibilities.

“Action is the foundational key to all success ”

Why **SPONSOR**?

Choosing to sponsor the Red Storm Robotics team is an excellence chance to show support for creative young minds. With community support our team is able to build life skills, strong work ethics, and become the best students we can be.

In addition, the Robotics team will bring a new generation of young adults experienced in Science, Technology, Engineering, and Math (STEM) into the community that will contribute to Michigan’s businesses and industries.

There are various other ways to get the **STORM** started!

- Supply a meal
- Supply materials & products
- Volunteer your time
- Get the word out!

How **EPIC** is your **STORM**?

Category 1 <ul style="list-style-type: none"> • Thank-you card 	99 dollars and below
